3" carbide tip  
& carbide wings

**6** **SWT-01P**  
1" tip with  
no carbide

**7** **SWT-01PC**  
1" tip with  
wide carbide

## SW14-01AF

- Tips sold separately
- Tips are held on by a 1" double roll-pin.
- A steel tab prevents dirt from plugging the opener.
- Most round seed hoses tubes can be clamped directly to the funnel.
- McKay & Flexi-coil square seed boots fits into this funnel.
- If using a Flexi-coil square seed tube, tab must be removed from opener.

**NOTE:** Wings on the SWT-03FC will wear off before the carbide does. Hard facing & carbide on the wings will improve wear dramatically.
